Present
200 Series**

**September 18-21, 2006
Holiday Inn St. Paul East
2201 Burns Avenue
St. Paul, Minnesota 55119-6667**

CARB 200 Series training program provides information on processes emission points, controls and inspection points for a variety of industrial processes. Each course includes a classroom session and field training at a representative facility, which gives the opportunity to see how the information applies to a "real world" situation. The courses are beneficial not only for the inspector, but also for individuals involved in rule development, permitting and emission inventory development.

<u>DATE/TIME</u>	<u>TOPICS</u>
Monday, September 18, 2006 8:00 am – 4:30 pm	Stationary Gas Turbines and Power Plants Course - # 272* - Bob Warland (With pm field visit)
